## ARC ALGAE & GREENSLIME REMOVER

### DESCRIPTION

- Removes algae, green patina & green deposits
- Also kills red algae found on house walls
- Prevents recurrence
- For use on terraces, gravel, brick, driveways, house facades, walkways, roofs and fences
- For use on all external surfaces such as stone, wood, plastic, glass, concrete, ceramics, paving stones, roof tiles and felt
- Safe to use on tarmac
- It is sprayable
- Ready to use
- Self-acting, no need to scrub

### EFFECT

Self-active removal of algae, green patina and green deposits and protects against recurrence.

### APPLICATION

For terraces, gravel or brick drives, driveways, house facades, walkways, roofs, fences and all external surfaces such as stone, wood, glass, concrete and ceramic surfaces, roof tiles and roofing felt, sidewalk paving, clinker and paving stones, terracotta etc.

### DIRECTION OF USE

Cut off the pouring spout with a sharp knife. The surface to be treated must be dry. Apply the Algae & Greenslime Remover generously and evenly. Wet the surface well and evenly. Do not rinse and allow to work-in for a minimum 24 hours. Residues will disappear without further treatment of the surface. Only in case of stubborn staining use a stiff brush or scrubbing tool, or allow to work-in for longer. If necessary, repeat the application. Clean working tools with water after use.

### IMPORTANT

Color changes (brown-red) may occur to the green residues during the working in period, which disappear again after the action of sun and weathering.
