

## CR5 FORWARD/REVERSE PLATE

Outstanding Performance Thanks to their smoothness of operation, their vibrating characteristics and their rugged and reliable design, our machines for medium-sized compaction jobs also set standards for a new class of machines. The CR 5 reversible translates this concept into optimum compaction results.

CODE	WBM00021
Model	C5
Operating weight to CECE kg (lbs)	281 (618)
Centrifugal force kn (lbs)	42 (9450)
Frequency Hz (r.p.m.)	75 (4200)
Operating width mm (in.)	550/700* (22/28*)
Engine manufacturer	Hatz 1 B 30
Engine type	Diesel
Engine power output, max. kW (HP)	5.4 (7.4)
Power output at operating speed kW (HP)	4.6 (6.2) at 3,000 rpm
Starting Mechanism	RECOIL
Working speed m /min. (ft /min.)	0-24 (0-79)
Recommended temperature range ° C	0-45

\*Operating width with extension plates.
